Exquisite TOUCHES

PRESENTATION JOY!

Every touch is so important. Meetings, visits, outreaches — each experience should be memorable. Handwrapped, ribboned and tagged pieces are treasured. I wrap and present agendas, proposals and all written communication to feel like gifts.

WHAT DOES PLANNING LOOK LIKE?

Event planning starts with understanding the feeling - what do we want our guests to feel and experience? What does the space offer and how best to create the mood, most often with cost and timing as key factors. Personal, small scaled touches always delight and amazing guests - Heidi Price Design solutions are often monochromatic and always tailored to the client or experience. No two events are ever alike in any way.

EVENT UPDATE: FLOWER BAR

In Early May, i welcomed guests to Smith and Wollensky Waterfront's refreshed patio and Liberty Room to enjoy cocktails, dinner bites and conversation. Themed in toile pink throughout, the guest experience featured creating one's own bouquet from the vases of ombre pink stems. Guests love an activity that creates conversation and something meaningful and memorable to take away.
