TOUCHES Exquisite

SCALE AND TEXTURE = THOUGHTFUL

First quarter 2026 bringing new opportunities to celebrate, honor, and create beauty and meaning.

Winter is upon us and, while the snow is special and can be a pretty white blanket, I find my inspiration indoors with patterns, colors, textures and juxtaposition. Work began with the new year to plan upcoming events throughout 2026 - some fundraising in intent, some recognition, some celebratory and some honoring love and commitment. I thrive on the variety and opportunity to make each completely unique and appropriate.

2025 ended with a special evening - live drawing for a company celebrating their year-long success. Sitting with guests while drawing allows for incredible conversation, listening and learning, and guests love this unique offering where each leaves with a custom illustration with imagery that is meaningful to them. I finish each 'gift' in an acrylic frame with ribbon to finalize the exquisite touch.

What a difference signage makes. The Kindness Cafe opening at The Price Center soon! Abby Parrilla, CEO and the most inspirational person I know, infuses all with Kindness and gratitude.

"How do you say Innovation?" The power of the green dot - custom signage designed to name learning spaces at Notre Dame Academy. The elite private school renovated three classrooms and planned a ribbon-cutting event to introduce the space and to recognize donors. This was a wonderful intersection of design, event planning and tabletop decor.

GALENTINE'S LUNCH TABLE

CUSTOM SEATING CARDS

BIRTHDAY DINNER TABLE

Paper invitations do get noticed. Imagine how impactful a framed invite is!

This is getting really interesting and fun. Clients engaging Heidi Price Design to create memorable, lovely and themed tabletop set ups to make intimate meals even more special and thoughtful. The scale of these delicate details creates joy and visual interest and makes guests feel so special. No long lead time needed!
