Every single detail matters.

Hospitality isn't just service — its a collection of thoughtful choices, touches, scale and presentation.

Personalized tabletop decor creates a magical feeling and enhances the guest experience — ask any guest who has been seated at a thoughtfully accessorized table.

Whether an intimate dinner or a grand gathering, Heidi Price Design will create the most memorable and gorgeous tablescape.

A collection of wrapped gifts, likely for a wedding or anniversary, featuring various patterns and colors. The gifts are wrapped in paper with floral and geometric designs in blue, red, and yellow. They are tied with ribbons in shades of orange, blue, and red. A large, detailed butterfly is prominently displayed on top of one of the gifts. The text "GUEST GIFTS AS TABLE DECOR" is overlaid in white, serif font.

A close-up photograph of a round cake decorated with light green frosting. The frosting is piped into intricate, swirling patterns that form a wreath-like border around the top of the cake. Interspersed among the frosting are numerous small, round silver beads. In the center of the cake, there is a circular, raised design that appears to be a cameo or a medallion, also decorated with frosting and beads. The text "CAMEO DINNER" is overlaid in white, serif capital letters on the central design.
