TOUCHES Exquisite

SCALE AND TEXTURE = THOUGHTFUL

Introducing: Boston Tablescapes

My love of gathering, clustering and fussing has formalized into this wonderful capsule, offering highly personalized tablescapes for surfaces of any size. Dinners for four — birthday celebrations, bar surfaces, coffee tables, event high and low rounds, and of course, guest seated tables are perfect opportunities to delight and amaze. These highly unique and customized set ups can be planned and executed in weeks or one day - the net result is a guest experience of not only beautiful food and magical company, but details and visuals that last the meal and beyond. Let's talk about yours!

Thank you to *Modern Luxury* for the invitation to create the ultimate tablescape for *To Live and Dine Boston* at the Boston Design Center on May 8. I was one of selected designers tasked with imagining the theme "In Bloom" to help welcome Spring and create gorgeous and unique decor - no two tables were remotely the same. My theme was "It's Time" — featuring my collection of vintage Ralph Lauren china with clock faces set the stage for the monochromatic black and white palette. Bright fuschia peonies popped along select pink touches - the contrast between the tones and the intensity of the pink was stunning!

Some tablescapes are simple. Paper, floral buds and lovely patterns.

Exploring new and unique approaches to escort and place card formats. Every single thing the guest sees or touches should be designed and coordinated.

The gift of setting a 19' table in a tempo timeframe with the most personalized items, touches, gifts and textures. What a gift to me to be able to share love through setting up a gorgeous and meaningful table for our guest of honor and his many friends and family!

May I mail you a Tablescapes look book? Follow us @bostontablescape

And when the evening ends, enter @theosflowers to repurpose the florals for individuals with memory change.

In house box design makes everything the guest touches special and on theme.

WORKING CLOSELY AND THOUGHTFULLY TO CREATE INCREDIBLE EXPERIENCES FOR CLIENTS AND THEIR GUESTS
