FALL 2026

Exquisite TOUCHES

SCALE AND TEXTURE = THOUGHTFUL

A season of details... indeed so important and so memorable for guests and hosts. But the essence of planning is the calm and foresighted steps we take to ensure all is perfect. Clients should look forward to their event knowing that all has been considered, discussed, finalized and confirmed. My greatest joy is a relaxed and appreciative client. I heard recently, "Thank you for keeping us on schedule, Heidi. Would be lost without you."

Stunning chuppah design in collaboration with Table and Tulip, the couple and the officiant. Planning included working with the family's heirloom birch frame for maximum meaning. Working together to ensure the space, sitelines and frame allowed for the most intimate ceremony experience for every single guest. Meaningful - and beautiful.

Events of all sizes and goals -

This season brought opportunities to host guests for fundraisers, awareness raisers, cocktail parties, social milestones including bridal shower luncheons and a major wedding. Each event is planned and produced with the hosts' priorities and goals in mind - creating a memorable experience for every single guest is the goal of Heidi Price Design. Details, tablescapes, patterns, touches and hospitality are key, of course, but the attention to every single guest's needs ahead of and during the event is the hallmark of a memorable event. Every guest is important.

The custom cookies were designed to match the paper goods. Packaging and ribboning enhanced the details.

Other highlights:
We helped Chocolate Therapy of Wayland prepare prototype presentations for submission to 'Oprah's Favorites.' And, we imagined and executed an Art Gallery of submissions in the middle of a cocktail reception to feature the impact of the hosting organziation.
